

Conversations shine with Lumity.

Introducing Phonak Audéo™ Lumity
so you can hear the quiet-talking barista.

For over 75 years, Phonak has continued to create innovative hearing solutions that positively impact millions of people. We believe that hearing well is essential to your overall well-being. For this reason, we create solutions that are designed to keep you engaged socially, thriving mentally and feeling good physically.

Being able to fully participate in conversations is like a spark of light in the dark. When you can hear and understand conversations around you, it can illuminate your entire world.

This is where Phonak Audéo Lumity really shines. It focuses on giving you improved speech understanding¹ with its unique Phonak SmartSpeech™ Technology. Now you can enjoy conversations in many challenging listening situations – like hearing the quiet talking barista in your favorite coffee shop. Get ready for an enlightening listening experience and shine with Lumity.

Conversations shine with Lumity.

Fully immerse in conversations

Hearing can be challenging in many situations. Understanding speech is key in order to truly keep up with and participate in conversations around you. Phonak Lumity with unique SmartSpeech Technology improves speech understanding¹ and increases focus on what you want to hear.

Hearing well also allows us to be more socially active and connect with others. Using hearing aids can improve quality of life, social interactions, and relationship satisfaction for you and your loved ones². With Lumity, fully immerse in conversations around you and enjoy easier hearing in many situations.¹

Having more access to sound not only provides clarity, but reduces listening effort.³

Intelligently boost speech understanding in noise⁴

When you're in a group, in loud noise or when there's distance between you and the speaker, you might need a little extra help to hear well. This is where Phonak Lumity, combined with other unique Phonak innovations, truly shines.

ActiveVent™ Receiver

The world's first intelligent hearing aid speaker

ActiveVent is capable of combining both comfort and hearing performance. Intelligently controlled by the proprietary Phonak automatic operation system, AutoSense OS™, it balances between comfort and performance in challenging social situations. In addition to better rated sound quality of streamed audio in quiet³, this speaker also provides an average of 10% better speech understanding in noise* and natural sound quality in everyday listening situations.^{4*}

Roger™ Technology

Boosting speech understanding in noise and over distance

When combined with Phonak hearing aids, Roger improves speech understanding, allowing you to fully participate in conversations in many challenging situations such as restaurants, meetings at work or college lectures.⁵

* Compared to conventional acoustic coupling.

Connect with the world around you

Universal connectivity

Phonak Lumity provides direct connectivity to iOS and Android smartphones, TVs, Roger devices and wireless accessories. Lumity hearing aids allow you to make true hands-free calls and pair up to eight Bluetooth® enabled devices, with two devices connected simultaneously. We live in a world where everything's connected. With Lumity, connect with the world around you.

Tap Control

Control at your finger tip

Thanks to lithium-ion technology and an integrated motion sensor, Lumity makes it possible to steer Bluetooth features via a double tap on your ear. This function allows you to accept/end calls from your connected iOS or Android smartphone. You can also pause/resume streaming from connected Bluetooth devices and access Bluetooth based voice assistant apps.

myPhonak app

Monitor your well-being

With the myPhonak app you can take control of your hearing aids. Use the Remote Control to adjust your hearing aid features, or personalize your device performance whenever or wherever you like. New health data tracking functionality even allows you to track your physical activities and provides you with helpful insights, like step count and activity levels. Also, you can directly connect with your clinic via Remote Support, for a truly personalized hearing experience. Get more health insights and monitor your well-being with the myPhonak app.

Hearing care professionals rate Phonak as #1 for connectivity solutions.⁶

Let conversation shine

Featuring our most innovative hearing technology, all Phonak Audéo Lumity models enable you to enjoy conversations while taking control of your hearing. Whether it's monitoring your physical activities or connecting to your favourite Bluetooth devices or wireless microphones, Lumity will keep your conversations shining!

The second generation of the world's first waterproof* rechargeable hearing aid

Phonak Audéo Life™ Lumity

Light up your hearing confidence with Phonak Audéo Life. It can be submerged in up to 50cm of fresh or salt water. Whether you're sweating at the gym during an intense workout, relaxing by the pool or get caught in a rain shower, Audéo Life is the ideal solution for anyone who puts their hearing aids to the test.

*up to 50cm

Choose your shine

Choose a model that suits you and shine bright with Lumity. All models are rechargeable and available in various colour options with or without telecoil and as a waterproof option. Your hearing care professional can help you find the right model to keep your conversations shining.

Phonak Charger Ease

In a new small and compact design, charge Audéo L-R and RT hearing aids in just three hours to offer a full day*⁷ of hearing.

Phonak Charger Case Go™

An inductive, easy to use charger with an internal battery, exclusively designed for charging Audéo Life on-the-go, up to 3 times on a single charge.

*16 hours of battery on a single charge, including 8hrs of everyday listening, 4 hours of Bluetooth streaming and 4 hours of TV streaming. Battery life may be minimally reduced when using ActiveVent Receiver.

Stay in charge

The first fully rechargeable product range from Phonak – the future is on.

Stay in charge of your hearing with the fully rechargeable range from Phonak. This proven technology is the preferred choice for hearing aid wearers and hearing care professionals. In fact, three out of four previous generation Phonak devices sold are rechargeable. Enjoy the benefits that this technology brings to you and your loved ones.

Better for you

- Access additional hearing performance features – only available because of rechargeable technology
- Easy to use
- No battery hassles

Better for your loved ones

- Safer use – no batteries for small children or pets to accidentally get hold of

Better for the environment

- Save on average 800 disposable batteries during the lifetime of a pair of hearing aids
